## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on April 19 and May 11, 2004 have been entered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 24 is rejected under 35 U.S.C. 102(b) as being anticipated by Japanese 61-126903 (cited by Applicant).

The roll stand shown in Figure 1 of '903 had work rolls with tapered ends and axial shift means for the work and intermediate rolls, as required by these claims. The stand appears capable of being used in a reverse-rolling facility with the roll-setting parameters recited in this claim. However, such particular rolling facility and setting parameters do not distinguish the structure of the stand itself from the prior art.

### ***Conclusion***
